

Play value

The Curved Track improves manual agility. The up and down movement of pushing a paired handle along a specially designed track serves to simultaneously exercise the arms, shoulders and wrists. As well, every figure which is made by moving the handle is recognisable and is, likewise, integratable into the therapy.

Recommended for

- Young people
- Adults
- Older people
- Supervised play areas such as schools, after-school programmes or similar
- Public play areas without supervision such as playgrounds, parks or similar

Curve Track

Technical information

Equipment made of non-impregnated mountain larch

Core-free

Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

Adjustable

Adjustable two-piece bolt connection, easy to maintain, no projecting threads

HPL ground anchor

Foundation anchor made of phenol resin paper-based laminates

For more detailed explanation of the quality characteristics see price list.

Sandwich construction frame, oiled, non-positive fitting

Curve track made of stainless steel (thickness 10 mm)

Handle bar and balls made of polyamide

Dimensions

(small deviations possible)

Height	2.05 m
