

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Date of installation

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- location
- usage
- frequency of use
- possible vandalism

For more details see also our general instructions for maintenance of playgrounds!

Lock Gate
Order No. 5.20930 / 5.20933 / 5.20935

Function

1. Check lock gate for free movement and leakage; if sand or similar has got into the guide housing, rinse through with lots of water – a small amount will also flow through even if the gate is shutting well.
2. Check the rubber sealing plate for wear and tear.
3. Check that connection is stable.

Structural stability

4. Check anchoring to concrete or masonry once a year.
