

# Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Date of installation .....

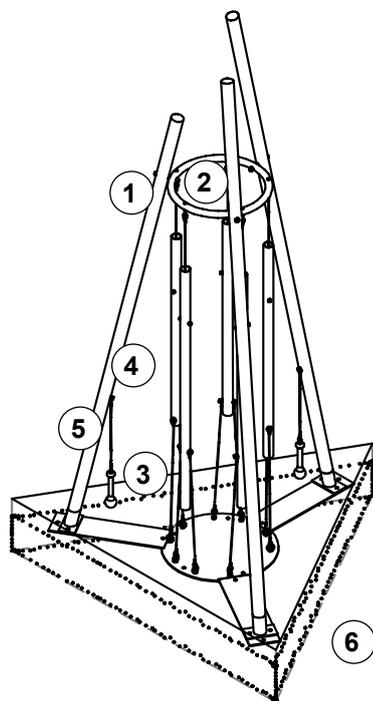

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- location
- usage
- frequency of use
- possible vandalism

**For more details see also our general instructions for maintenance of playgrounds!**

**Tubular Chimes  
Order No. 10.52400**

## Stainless steel

1. Clean with stainless steel spray (www.kim-tec.de) using a clean cloth.

## Sound tubes

2. Check that ring and tension cables are properly connected and retighten bolts if necessary.

## Beaters

3. Check for wear and tear.
4. Check that the beater is properly connected.
5. If necessary, disentangle suspension cables; if the beater is missing (vandalism) install a replacement beater.

## Structural stability

6. Check anchoring to the ground and stand post for corrosion once a year.

Special notes, e.g. for repairs

Repair not carried out, it is still possible to play on equipment

Repair not carried out, equipment is taken out of action

All work carried out, everything is in order

Maintenance carried out by:

..... Date .....

For spare parts refer to next page.

**Spare parts**  
**Tubular Chimes**  
**Order No. 10.52400**

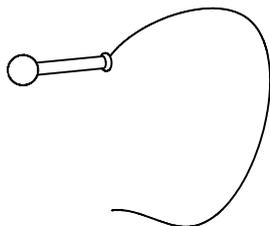

Please note that the safety standards of the equipment must not be affected. Therefore, when carrying out repairs it is helpful to **only use original parts**.

**Order No. Spare parts**

**10.99905 Beater, complete**  
(valid until October 2024)

**10.99953 Beater, complete**  
(valid from November 2024)

**10.99920 Tube with suspension cable**
