

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Wooden parts

1. Check for rot and, if necessary, smooth out splinters and round off sharp edges of cracks.
2. **Recommendation:** apply paraffin wax to the upper end grain areas once a year, please refer to Order No. 0.90100, 1 litre.

Compression springs

3. Check that bolts and screws are tight and retighten if necessary.
4. Check for wear and tear, replace if necessary.

- ## Structural stability

5. Check anchoring to the ground once a year.

A diagram of a mechanical watch movement. It shows a top plate (1) with a balance wheel (2) and an escapement (3). A balance spring (4) is attached to the balance wheel. The entire assembly is housed in a case back (5).
