

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground

Date of installation

Checks depend on the kind of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on:

- location
- kind of use
- frequency of use
- possible vandalism

For more details see also „General instructions for maintenance of playgrounds“.

Swing Scales
Order No. 6.10200/L6.10200

Wooden parts

1. Check for rot and, if necessary, smooth out splinters and round off sharp edges of cracks.
2. Check that all bolts and screws are tight and retighten if necessary.
3. **Recommendation:** apply paraffin wax to the upper end grain areas once a year, please refer to Order No. 0.90100, 1 litre.

Joints

4. Check the swivel joints for smooth motion, lightly grease if required.
5. Check the connection to the wood, collar of joint must be flush.

Rope connections/Ropes

6. Check all ropes for signs of wear, renew if the steel core is damaged.
7. Check the connection of the rope, lightly oil during each maintenance.

Suspension/Pendulum seats

8. Check chains and fastenings to the chains, the first link must be securely jammed, check wear on the next moving link.
9. Renew the pendulum seats if metal core is visible.

Structural stability

10. In order to check for rot at wooden parts or steel feet for corrosion, uncover the foundation once a year.

Special notes (e. g. for repairs):

Repair not carried out, it is still possible to play on equipment

Repair not carried out, equipment ist taken out of action

All work carried out, everything is in order

Maintenance carried out by

..... Date
