

Swinging Ball suspension technically modified.

**Swinging Ball**

**Play value**

This exercise can be conducted alone or with a partner. The aim is to throw and catch a ball which is suspended on a pendulum. The equipment is installed with buffers which prevent the ball hitting the player or their training partner. This exercise trains the movement of the hands, arms and shoulders. It contributes to improving mobility, reactions and the sense of rhythm. In addition, this exercise trains coordination and the playful aspect gets people used to working together.
