

Play value

The fortified appearance of this Dwarf Castle can't help but arouse the interest of little ones. Different openings only partially reveal the secrets it holds inside. It is only through the capture and ransacking of the different levels and openings at the back that further possibilities begin to unfold. Whether as a commando bridge, to play hide and seek or a place for a short time-out.

Dwarf Castle

The curved floor offers an enticing, different way of conquering heights; both as a walking level and as an area for lying down on, and increases the experience for the children in a very special way.

Fundamental characteristics

- Completely made of wood for positive stimulus and tactile perception
- Combination of curved and level elements
- Opening for visual communication
- Incentive for playing: Role-playing games
- Movement: running, crawling, going through openings

Recommended for

- Children under 3 years
- Kindergarten children
- Supervised play areas, such as kindergartens, schools, after-school programmes or similar
- Public play areas without supervision, such as playgrounds, parks or similar

Surfacing requirements corresponding to a fall height of ≤ 1.50 m (please refer to price list for more detailed information)

Foundations
4 items 30 x 30 x 20 cm
Excavation depth 40 cm

Attention:
Exact measurements may vary;
for all installation dimensions refer
to current assembly instructions.
Technical changes reserved.

Technical information

Equipment made of non-impregnated mountain larch

Core-free
Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

Tongue and groove
Tongue and groove planks made of 4 cm solid wood, highly resilient, no trickling of dust / sand, protection against direct rain

Ground anchor
All parts used for anchoring to the ground are made of hot-dip galvanised steel or stainless steel

For more detailed explanation of the quality characteristics see price list.
