

Play value

The Small Fish with the peepholes is a playing house which lends a special character to the playground. Its appearance and attractive decorative paintwork make it a popular point for small children. The roof surface, which is open on both sides, has appealing peepholes set into it. The inside space is a meeting point as well as an area for play activities. Children can hide inside the tummy of the fish, keep a lookout or make themselves comfortable, just as if they were in a little house.

Fundamental characteristics

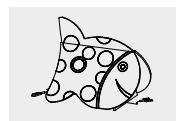

- Attractive forms and colours
- Friendly fish as meeting point
- Playing house with peepholes
- Child-oriented dimensions
- Incentive for playing: role-playing games, hide and seek

Recommended for

- Children under 3 years
- Kindergarten children
- Supervised play areas, such as kindergartens, schools, after-school programmes or similar
- Public play areas without supervision, such as playgrounds, parks or similar

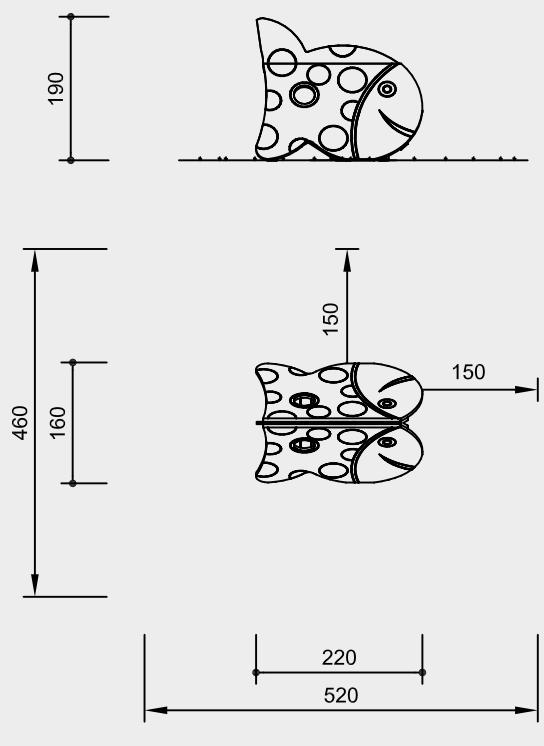

**Small Fish
with Peepholes, Floor and Bench**

Order No. 4.08503
Small Fish
with Peepholes, Floor and Bench

Safety distance →
 Device dimensions ——●—
 Functional distance ——

Scale 1:100

Safety check according to DIN EN 1176

Components

- 1 Fish with floor and bench
- 2 Shovels with chain
- 4 Foundation irons

Installation information

Surfacing requirements
 corresponding to a fall height of ≤ 0.60 m
 (please refer to price list for more
 detailed information)

Foundations
 4 items 40 x 40 x 40 cm
 Excavation depth 60 cm

Attention:
Exact measurements may vary;
for all installation dimensions refer
to current assembly instructions.
 Technical changes reserved.

Technical information

Equipment made of non-impregnated
 mountain larch

Core-free

Sawn-timbers core-free, thus decreasing
 occurrences of cracking and undesired
 changes in shape

Tongue and groove

Tongue and groove planks made of
 4 cm solid wood, highly resilient, no
 trickling of dust / sand, protection
 against direct rain

Plywood

Plywood made of mountain larch,
 three-layer (3 cm) or five-layer (4 cm).
 High dimensional stability,
 waterproof, glued according to
 DIN EN 13353:2011

Ground anchor

All parts used for anchoring to the
 ground are made of hot-dip galvanised
 steel or stainless steel

**For more detailed explanation of the
 quality characteristics see price list.**

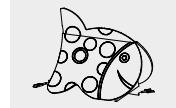

Colour

Solvent-free acrylic paints are used for
 colouring; the wood is painted in a way
 which allows the structure of the wood
 to remain clearly visible

Dimensions

(small deviations possible)

Height	1.90 m
Length	2.20 m
Width	1.60 m
Weight	270 kg
