

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Slide

Date of installation

1. Check for vandalism.
2. Check welds.

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Bolts and screws

Intervals for maintenance work and checks generally depend on

3. Check the starting section, support head and run-out section for stability and retighten screws and bolts if necessary (on two-part slides also check the screws and bolts on the flange).

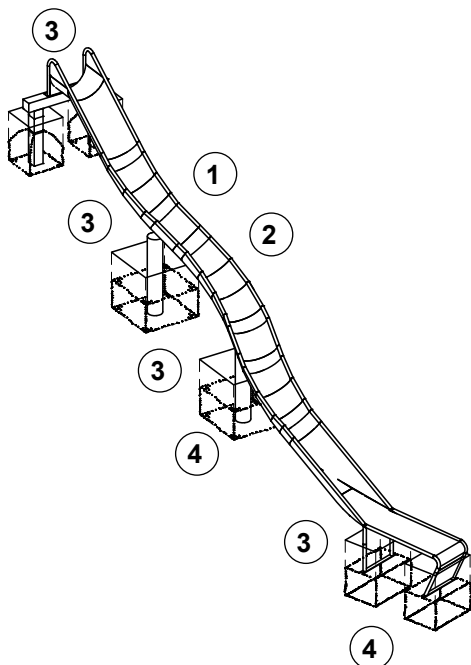

- location
- usage
- frequency of use
- possible vandalism

Structural stability

For more details see also our general instructions for maintenance of playgrounds!

4. In order to check the stability of the foundations or the steel feet for corrosion, uncover the foundations once a year.
