Instructions for wear checks of play equipment	СО	The equipment must be checked for correct operation and safety, especially the points listed below:		Proof of maintenance	
Playground	1. 2. 3.	Check for rot and, if necessary, smooth out splinters and round off sharp edges of cracks. If required, touch up or renew paintwork (use a solvent-free acrylic paint). Bearings Check that bearings move smoothly. Grease if bearings make a squeaking noise or are difficult to turn. To do this, remove the hat and apply grease to the grease nipple underneath using a grease gun until bearings move smoothly again. Replace plastic bearings if axle clearance is too high. Metal parts Check handles or collar and foot ring are fastened properly. Structural stability In order to check the bottom attachment uncover the foundation once a year.		Special notes, e.g. for repairs	
For spare parts refer to back of page.	Re equ	pair not carried out, s still possible to play on equipment pair not carried out, uipment is taken out of action		<i>ซ</i>
